

# INTEGRASPEC<sup>®</sup>

"The User Friendly ICF"

## FEATURE PROJECT

**Project:** Kanata Rockeries

Ottawa, Ontario

**Designer:** Teron Inc.

Ottawa, Ontario

**General Contractor:** Teron Inc.

Ottawa, Ontario

**ICF Engineer:** Adjeleian Allen Rubeli Limited

Ottawa, Ontario

**ICF Installer:** Son-Star Construction Corp.

Ottawa, Ontario

**ICF Distributor:** EMM Group

Ottawa, Ontario

**Features:** This 8,000 ft<sup>2</sup> radiant floor heated home includes IntegraSpec<sup>®</sup> radius walls of 32', 57', 66', and 75' long; 9' and 12' tall with brick ledge. 44 cubic meters of 20 mpa 6' slump pea stone concrete with an 8" to 12" concrete core thickness, reinforced with 10 mm and 15 mm steel re-bar.

**Benefits:** The IntegraSpec<sup>®</sup> wallsystem provides fast accurate construction with minimal waste. The concrete was placed in under two hours in one and two passes. Very satisfied and impressed constructors / designers, and homeowners on this project are recommending IntegraSpec<sup>®</sup> as "The User Friendly ICF".

*"We were very nervous going into this project. The design complexities were very real. IntegraSpec<sup>®</sup> is the only ICF that enabled us to confidently deal with the installation risks within budget and on time. We were impressed every step of the way and we are still talking about IntegraSpec<sup>®</sup>'s strength during the pour. IntegraSpec<sup>®</sup> provided the best installed cost; we recommend."*

*- Denis Nadeau, President  
Son-Star Construction*
